

the PLEASER...

...we designed our computers for people like you who are interested in having one, but up 'til now didn't have \$30 or \$40 thousand to put into one. It is all together in one package now, thanks to advanced technology and the good ole american spirit of doing it faster, better, and cheaper than the other guy.

Because we are a young company (we just celebrated our first birthday) we have a lot of that "spirit" and some pretty capable men who came up with a computer that others are just now beginning to copy. While copying us is a real compliment, no one has yet equalled or bettered what we have developed.

We have a Central Processing Unit (CPU) that contains the most advanced technology available today. That means to you that the CPU will do what a CPU ought to do. It's reliable, and **THAT'S A PLEASER.**

We have a Serial Interface Module (SIM) that is a very powerful idea in the computer world today. Let me explain. You can have an inexpensive audio cassette player / recorder as a mass-memory storage device. Understand the power of the SIM board. For just pennies you can store vast amounts of Data on an ordinary audio cassette. **NOW THAT'S A PLEASER** Sphere also offers the floppy disc as an option when time gets to be a premium.

We have a Program Development System (PDS) that is an aid to programming. What an idea! It remembers its job even when the computer is off. With instant call-up of the program outline when the power is turned on. There is an Editor, an Assembler, and a Debugger to help you do your programming correctly, and quickly, leaving you a lot more time to actually use the computer as a data handler... and **THAT'S A PLEASER.**

As if that weren't enough ...we have a newly added feature THE 4KROM BD. A board containing up to 4000 bytes of Read Only Memory. (The Stuff that's on it doesn't go away when the computer is off.) You put your most used applications and computer games on the ROM board Turn on the power, locate your favorite game, and you're up and hummin immediately. This makes using the computer lots of fun for a change. **WHAT A PLEASER.**

This is what you get. A computer that does what you want it to do when you want it to do it, at a price that you can finally afford. **NOW, THAT'S REALLY A PLEASER!!!**

from SPHERE
the COMPUTER PEOPLE
who have it ALL TOGETHER.

P.S. There's much much more, so write today for prices and information.
